

Creative Development Program FAQs – PART 2

1. What are 'previous developments'?

This is so you can provide further info about where your project has come from. Please only previous work that you have done on the project you are applying for specifically.

2. What are 'future developments'?

As above, this applies to the project you are applying for only.

3. What are 'future commitments'?

This gives the selection panel a better understanding of your availability to work on your project in the development window of 2019 and how it balances with your other commitments. This is the future commitments related to both your project and your larger creative practice.

4. Do I have to be Gold Coast based?

The eligibility criteria states that Project Leads must identify with the Gold Coast Region as either:

- Currently working or residing here
- Developing a body of work here

If you do not fall into either of these categories, then consider this a great opportunity to collaborate with a Gold Coast artist as your project lead. 'Developing a body of work here' would entail a significant connection with the Gold Coast, with numerous local collaborations and multiple works being developed here over time.
